Optional Items

C0124-I	"I"-Style Conveyor Stand (additional cost per stand; multiply by number of stands)
C0124-H	"H"-Style Conveyor Stand (additional cost per stand; multiply by number of stands)
C0304	2" Light Duty Locking Caster (Note: 2 casters are required per stand)
C0710-15.5	Replacement Aluminum Roller (3/4" x 15 1/2" BF)

Notes about our conveyors

*The I-style stands with palm screw adjustment may be substituted for the standard H-style stands, at additional cost. More than one stand may be required per conveyor; see individual conveyor listing for requirements

*The above conveyors are our standard configurations. We can tailor any of these to suit your needs.

*Concentrated rollers are a secondary set of shorter rollers placed in between the gaps of the longer rollers on the outer arc of the curve.

*All conveyors are constructed of 14 and 12 Ga. Carbon steel with a durable powder coated finish.

*Conveyor frames are light grey in color, and the stands are black. (Stainless steel is an available option)

*The roller width on all conveyors is 15 1/2" unless otherwise noted. (Custom sizes available)

***Lead Time: 2-3 weeks**

***Terms: Net 30 from date of invoice**

* **Quantity pricing is available upon request.**
